Testimonial:

This course way exceeded my expectations.
The technique is so polar to how I have been
using acupuncture for the past 12 years.
I was skeptical about the perceived pain of
the Dào Needle technique but Experiencing it has
me as a believer! Learning on ourselves and
patients was invaluable. Hands on with real
cases gave me the confidence to do this
on Monday in my own practice.
Thank you!

Testimonial:

Brian's enthusiasm is infectious, but in addition to being engaging and fun in the way he presents the material, he is clear and effective. Even as beginners we were able to do a great deal of good for each other during the class.

Actually experiencing the Dào needle technique was amazing. I had immediate dramatic effects and am looking forward to what this can do for my patients.

Testimonial:

Brian Bowen is a gifted instructor. Many people can demonstrate a technique or process, but few can accurately teach these techniques to facilitate the assimilation of this knowledge.

Testimonial:

Over the many years of study, I've been fortunate to come across a few truly gifted teachers.

Brian Bowen is one of these. Not only does he have all the skills that true teachers have - clear communication, connection with each class participant, consistent organization, etc., but he has a friendly + genuine personality that makes the class a fun time.

All this before I say anything about the substantive nature of the course, which addresses an area in which we as acupuncturists have a void to fill. I can't wait for the second weekend!

Testimonial:

Having taken seminars on
facial release over 25 yrs this
brings them all together as well
as my TJA training! Finally!
The missing piece! Brian is a GREAT
teacher! He presented the material very
clearly. I will be able to integrate
into my practice immediately! He is
very generous with the information
Thank you so much Brian

Testimonial:

This class brought a lot together for me in regard to fascial planes and meridian connections. The needling was surprisingly painless and extremely effective. I would recommend it for treating pain patterns. The postural assessment + treatment was a huge help and very well done.

Testimonial:

Brian has great energy and ~~knows~~ a wide breadth of knowledge. Class was not only taught well, it was fun. ~~He taught me~~ He taught me a new way of looking ^{at} and analyzing posture and how small corrections can make huge difference. The Dào needling method was incredibly effective! I look forward to and will use this in my practice. ~~Bring it~~ Bring it Certification Course II!

Testimonial:

I've had shoulder ROM restrictions & massage has helped but not like dao needling. I felt immediate relief & was able to have more ROM in my shoulder.

During class I was having wrist pain with limited ROM & after the treatment I was able to have more ROM & pain went down.

I recommend learning & getting certified, as well as receiving it because it really works.

Testimonial:

Superb class Excellent Instructor.

Wonderful format of identifying what material would be covered, discussion

of the concept, demonstration of techniques and evaluative techniques and summarizing.

This teacher could be a mentor to other acupuncturists who have special knowledge that need to learn presentation, class preparation, presentation and evaluation.
